FOCUS: LIFE RENEWING WORSHIP

We believe that worship involves great preaching, music that massages the heart and prayer that touches heaven. It is our desire that our worship service should grab your heart and give it a work out that is life renewing.

ENVIRONMENT: BLENDED

Our worship services apply our message to the person who has accepted the Gospel message but at the same time make it verbally accessible to the unchurched who care to attend.

KEY RESULT AREA: BIBLE CENTERED

Our message is always closely aligned with Bible content and the explanation and application of Biblical truth delivered in a way that people are inspired and drawn into a closer, personal relationship with Jesus Christ.

KEY RESULT AREA: CONTEMPORARY

Our music and style is middle-of-the-road contemporary music that people with adult children will enjoy.

KEY RESULT AREA: PLANNING

We apply focused planning to impact the flow of the worship service. It includes service content and technical planning.

KEY RESULT AREA: HEAD AND HEART

In our congregational singing we select music that will become quickly familiar and is easily singable. The planning of the entire worship service including music must touch the head and the heart so that people know they have been in the presence of God.

MEASUREMENT: LIFE CHANGE

We believe inspiring worship will impact the entire person from the inside out to the extent that the person will be motivated to take the next steps in their relationship with Jesus Christ.

MEASUREMENT: INITIATIVE

We want to create a worship experience that inspires people to invite others to church where they will meet new friends and find a church home.

MEASUREMENT: GROWTH

We believe that increased numerical and financial growth is a by-product of inspiring life-changing ministry where people have a meaningful encounter with the God of the universe.
